

sustainability

Starwood Hotels & Resorts Worldwide, Inc., believes that economic growth and the well-being of society are inextricably tied to the health of the environment. Accordingly, we embrace our responsibility for environmental stewardship and are committed to integrating leading environmental practices and sustainability principles into our core business strategy. We actively work to reduce the environmental impact of our business activities and to continually improve and innovate on practices aimed at:

- conserving natural resources
- minimizing waste and pollution
- enhancing indoor environmental quality
- establishing and reporting on key environmental performance indicators
- raising environmental awareness among our associates, guests and within our communities
